LATEST FOREIGN NEWS.

The following late items of foreign news we obtain from San Francisco files to the 2d inst., received by the steamer Australia on Monday last.

European.
CHICAGO, June 23d.—The Tribune's Washington special says: Numerous complaints are made by American Hebrews that Russia permits the outrages on Jews with American passports. No such com-plaints have been made to our Minister at St. Petersburg, and it is not probable that Foster would permit any Jew holding an American passport to be deprived of its protection. The question, however, of how Russia may treat any portion of her population is a delicate one, in which America is not likely to interfere.

ROME, June 23d .- There was a demonstration at Palermo yesterday, and several arrests were made in Naples for hostile demonstrations against the French.

Massettles, June 28d.—The Italians continue quiet in the city. Two steam-ship companies have offered to the Italian Consul free accommodation aboard all their vessels for such Italians as are afraid to remain, and 600 have already left.

LONDON, June 23d .- The census is rapidly approaching completion. The entire population of the Kingdom will be above 35,-000,000. The increase in the decade is a little over 4,000,000.

Bentin, June 24 .- A letter recently addressed to the Emperor of Russia and high officials, assuring them they had not been sentenced to death by the revolutionists, and which is supposed to have emanated from the leaders of the Black Division, concludes as follows: "The Executive deem it quite necessary at present to repeat its criminal enterprises, as the menspres of the new Ministers are fast driving the country into revolution."

MARSEILLES, June 24.-Placards were placed here on Sunday, declaring that all works where Italians were employed would be barned down. This threat now seems partly realized, as two oil mills and a manufactory where Italians only were employed have been almost totally destroyed by tire. The damage is estimated at 6,000,000 francs. An inquiry has been opened. COPENHAGEN, June 24 .- It is expected

that the emigration this year will be 70,000. St. Petersburg, June 24 .- A Montenegrin officer went to the Winter Palace yesterday and demanded an audience with the Princess of Montenegro. Being refused, he stabbed the officer on duty. A Russian officer then shot the Montenegrin

Paris, June 27th .- Twelve hundred Italians have left Marseilles.

MADRID, June 24th .-- A dispatch from the Spanish Consul at Oran says a hundred Spaniards were massacred by the insurgents during the recent raid on the Esparto factories at Saida. Four hundred persons were wounded or taken prisoners.

ORAN, June 29th .- Spies report that Bonamana, the rebel chief, has murdered the Zonaves and Chasseurs whom he captured, and spared only thirty-three of the Spaniards, whom he took prisoners recently near Saida.

CLEVELAND, June 22d .- Shortly after 3 o'clock this afternoon an east-bound train on the New York, Pennsylvania and Ohio Railvay, when about twelve miles from here, struck a buggy, in which was riding Thomas Garfield, aged 80, uncle of the President, and Mrs. Alonzo Arnold, sister of Dr. Boynton, a cousin of the President. Thomas Garfield was instantly killed, and Mrs. Arnold's skull so badly fractured that her life is despaired of.

WINNEMUCCA, June 24th .- A report from McDermitt says: J. J. Mann, a cattle man, came to McDermitt yesterday, and reported that the Indians have been killing cattle. Twenty-one men left at once for the scene of the trouble.

Washington, July 24th .- The United States of Colombia have entered the Universal Postal Union. The United States has recognized Cal-

deron as provisional President of Peru, and the example has been followed by all the other nations represented at Lima.

New York, June 25th .- A.M. - The Sun says: The poet John G. Saxe is a confirmed obstinate bypochondriac. He believes he is a hopeless invalid, grieves over his loss of political power, and imagines weakness and all sorts of disease that physicians can't detect. He has refused to go into company since the death of his daughter, Solace Saxe, June 5th, and even refused to go to the cemetery to bury her. He is no more the gay, witty, charming conversationalist, and cannot be prevailed on to take advice and prescription. His mind is apparently clouded by his grief.

Sr. Louis, June 24th .- The Republican'

Little Rock advices from the Choctaw and Chickasaw Indian nations indicate that affairs there have reached a crisis. The cavalry at Fort Sill have been ordered to report to United States Agent Tuffts at Munkogean, to assist with the Choctaw militia under Governor McBurtan, in driving the white intruders and their stock from the nation. Ali persons not Indians or in-termarried with Indians are classed as intruders under the law. The Indian militia in camp near Scullyville are thirty strong, and will join the United States troops at fort McAllister. The greatest terror exists. More than 800 families are said to have crossed the border in the past ten days, having abandoned their cabius to the flames their growing crops to destruction and their growing crops to destruction and their stock on the range. Some whites refuse to leave, claiming that they had genuine permits, and will protect them-selves if force is used to eject them. Sev-eral Texas stock men who have large berds of cattle in the Chickasaw nation have compromised with Governor Overton, by paying him \$1,500 for the privilege of grazing their stock until July 15th. An appeal has been sent to the Secretary of the Interior to re-affirm the decision of the Department made four years ago, allowing persons with permits to remain in the na-

of any nation. WASHINGTON, June 27th .- Congressman Keiffer is looking after the prospects for Speaker of the House. He is backed by the Ohio influence and the favor of the Administration, it is stated, although the President will not even intimate a preference. Kasson, Hiscock, Robinson of New Jersey, Burrrows, Hubbel, Reed, and Orth are also named for the Speakership. All

Quenec, June 9th .- One of those de-

structive fires to which Quebec is so sub-

ject broke out at 11 r.m. in the midst of St. Johns suburbs, midway between St. Roches and upper town. The fire or gin-

ated in a small house in Oliver street and

immediately spread to adjoining buildings.

600 houses destroyed. Some were brick

and some were stone, but the majority

spreading. No loss of life is reported yet,

but several persons are missing. The

houseless are camped out in fields sur-

rounding the city. Thieves made off with

most of the property saved. Flame and fire overtook nearly all the remaining mov-

ables. Half the people in town block the

streets and firemen are impeded. A panic

prevails everywhere. Burning sparks and

shingles are falling all over the city, and

its total sweeping out of existence is by no

means improbable. Fire extended to

Mount Pleasant near the city. The bound-

Scott and Gabriel streets, has been already

consumed are running east and west :

Richmond in part, principally on the south

treal ward also on the west side. Among

the property destroyed on Johns street are

used as stores and private residences. The

battery was called out and rendered excel-

Burning shingles fell over the city

and as far out as Maple avenue during the

night, endangering every part of the town.

Several incipient fires in different streets

were suppressed by the vigilance of their

occupants. It is computed that there must

be a loss of \$2,000,000 between buildings,

stock and furniture. Over 1,500 families

are rendered homeless, and at least 800

buildings are destroyed. It is impossible

to give a full and correct list of sufferers

and losses and insurances at this moment,

but insurance companies doing business in

this city are very heavy losers. The fire

brigade and apparatus was quite unfit to

cope with such a fire, and to its weakness

and wretched water service the whole dis-

aster is due. Even the police and firemen

were greatly demoralized. A daring rob-

bery was carried on in full sight of every-

body. Liquor stores and private residences

attacked by the flames were ransacked for

liquor, which was speedily drank by the

able features of the disaster. Sparks,

en buildings, were themselves a terrible

which lighted on them. The wind being

lost, and three bodies have already been re-

covered-those of Mr. and Mrs. Hardy,

118 Oliver street and a joiner of Richelieu

street, Mrs. Geo. Lapperaire and two child-ren are missing, and are believed to have perished in the flames.

ASPINWALL .- A dismal tale comes from

Aspinwall of the state of society and pub-

lic order in that city. The beginning of work on the Panama Canal has attracted

thither shoals of adventurers in quest of

employment, or, in too many cases, plunder.

As yet there is no work to be done, and

the throngs of idlers, without the means of

subsistence, are esily led into the vice of

crime. The half dozen or less policemen,

overworked and underpaid, are unable to

maintain order, the jail is crowded to re-

pletion, and the Police Justice says there s no use sending any more criminals to it,

for they do not look upon imprisonment as

a punishment, but rather as a cheap way of getting food and lodging.

A NEW FIND AT POMPEH.-In Pompeii

there has been recently excavated a cottage

containing a beautifully ornamented room. The pictures on the walls are of unusual

artistic merit, and wonderfully well pre-served. They consist of half-size portraits with a life-like expression. Near the house was found a fountain two and a half

meters high. There was a bronze statuette in the niche, and the wall against which

the fountain rested was covered with
